

The APUS - Group develops the hybrid propulsion testbed APUS i-5. The 4-tonns-aircraft will be powered by a Rolls-Royce developed hybrid powertrain. For the design of aircraft parts and tooling, we are looking for a

CAD Design Engineer (m / f)

at the Strausberg airport (near Berlin).

Your areas of responsibility

- (CAD-)Design of metal and composite structures
- (CAD-)Design of aircraft systems and fittings
- (CAD-)Design of production tools and jigs
- Preparation of work orders for prototyping
- Technical documentation of assemblies by drawings, parts-lists and technical specifications
- This position is reporting to the Certification Verification Engineer

Your profile

- University degree in aerospace engineering, mechanical engineering or a similar field
- Good knowledge of foreign languages in English and preferably German
- Basic knowledge of airworthiness requirements and codes (CS-23) is an advantage
- Interest in aviation and passion for emission-free mobility

We offer

An exciting field of activity in various areas related to general aviation and innovative propulsion systems. Our professional and young team would like to welcome you to our EASA-approved design organization. We would like to work with you on pioneering projects and make them fly. Our transparent, dynamic and creative way of working will inspire you. You will quickly be swept away and feel at home with us.

Application deadline:	30.04.2020
Preferred start of work:	01.06.2020
Vacancy reference id / date:	#05 / 11.03.2020
